Career Pathways® COLLABORATIVE

This document outlines accommodations available for cPass assessments. Operational tests allow for all of the below accommodations. For pilot tests, all accommodations are available except text-to-speech (TTS).

Accommodations available for cPass	
Color Overlay:	The overlay color is the background color of the test. The default color is white; you may select an alternate color if needed. Color options are light blue, light yellow, light grey, light red, and light green.
Reverse Contrast:	The reverse contrast choice will adjust the background color to black with white lettering.
Masking:	The masking option allows the student to cover parts of the test. There are two options for masking: student-controlled and automatic. Student-controlled masking allows students to adjust and move the masking boxes around as needed. Automatic masking covers the answers when the question is first presented. Students will then be allowed to click to uncover the answer choices.
Color Contrast:	The color contrast option allows you to choose from several background and lettering color schemes. Options are grey text on black background, yellow text on black background, green text on white background, and red text on white background.
Text-to-Speech (TTS):	Directions and test items will be read aloud.

Personal Needs and Preferences Profile (PNP)
The PNP is intended to meet the needs of all learners, including those with disabilities. It defines a learner's needs and preferences for digitally-delivered resources or services. The PNP can be accessed in the Student Record in Educator Portal. Additional directions on accessing a student's PNP can be found at: http://careerpathways.us/documentation. The PNP includes three categories:

1. Display enhancements: How resources are to be presented and structured;
2. Language & Braille: How content is communicated to the learner (not currently available on cPass); and,
3. Audio & Environment Supports: How content is audibly delivered and the testing environment is adapted to fit a learner's needs.

If you have any questions about any of these procedures, please contact the cPass® Team at (785) 864-6391 or cPass@ku.edu. Any technical issues experienced with KITE® Client should be directed to the Service Desk at 855-277-9755. Thank you.
